District 7450 RYLA Conference

March 7, 2026

Penn State Great Valley Campus Conference Center, Malvern, PA

Rotary – Rotary International is the largest private scholarship foundation worldwide. Local Rotary clubs provide humanitarian service, encourage high ethical standards in all vocations, and help build goodwill and peace in the world.

There are 33,000 Rotary clubs in more than 200 countries and geographical areas. Clubs are nonpolitical, nonreligious, and open to all cultures, races, and creeds. As signified by the motto “Service Above Self”, Rotary’s main objective is service — in the community, in the workplace, and throughout the world.

Rotaract - It is a service, leadership and community service organization for young men and women between the ages 18–30. "Rotaract" stands for "Rotary in Action", focuses on the development of young adults as leaders in their communities and workplaces.

To be eligible for membership, prospective members must be 18–30 years of age, show that they are committed to Rotaract, and show that they are of good standing in the community.

Interact is Rotary International’s service club for young people ages 12 to 18. Interact clubs are sponsored by individual Rotary clubs, which provide support and guidance, but they are self-governing and self-supporting.

Each year, Interact clubs complete at least two community service projects, one of which furthers international understanding and goodwill. Through these efforts, Interactors develop a network of friendships with local and overseas clubs and learn the importance of: developing leadership skills and personal integrity, demonstrating helpfulness and respect for others, understanding the value of individual responsibility and hard work and advancing international understanding and goodwill.

Interact has since become one of the most significant and fastest-growing programs of Rotary service; with more than 20,000 clubs in 159 countries and geographical areas, Interact has become a worldwide phenomenon. Almost 500,000 young people are involved in Interact.
